What does Africa need?

More money? Democracy? It's had quite a bit of both. Have either made any significant lasting difference?

Africa needs the tools to build its own future: self-respect and responsibility, skills and capacity-building.

SEED doesn't do hand-outs. We empower communities to move forwards with dignity. Instead of digging 30 wells across the region, we teach one community how to dig their own, and how to maintain or replace it. Instead of paying 100 children’s school fees, we help their parents develop business skills so they can pay fees themselves. Quality over quantity. Dignity over dependence. Lasting change.

SEED is always trying to work itself out of a job! Success is a community that doesn’t need us any more (currently in Zimbabwe). Join us in making a lasting difference.
